# FAQ

## **DO I REALLY NEED A VIDEO?**

Absolutely, while photos capture moments, a wedding video captures the energy, emotion, and movement of your special day. It's a dynamic keepsake that lets you relive your wedding day. It's a treasured memento that generations to come will appreciate.

## **HOW CAN I DETERMINE THE APPROPRIATE TIME?**

Consider the key events of your day you'd want captured - from getting ready to your reception's end. Typically, 8 hours of coverage works for most weddings. If your day includes extended traditions or multiple locations, you might need more. We can help customize the right coverage for you!

## **WE DON'T LIVE IN SYDNEY, DO YOU TRAVEL?**

Absolutely! If you're within an hour and half of Sydney, the travel is included. Outside of that we would need to give a quote based on the package and distance. But we are pretty reasonable with our travel prices because we LOVE travelling. We are available Australia wide and are definitely happy to travel overseas to capture your special day!

## **WHAT'S THE BENEFIT OF HAVING A SECOND SHOOTER?**

A second shooter becomes crucial when the focus shifts from simply capturing visuals to crafting a comprehensive wedding film that includes audio. With our Movie and Cinema packages, the second shooter enables us to capture diverse angles, reactions, and moments, ensuring we miss nothing of importance. This significantly enhances the richness and depth of your wedding story.

## **CAN I ADD MORE HOUR IF NEEDED?**

Absolutely, all our packages are flexible. For example, if you want Package 1 but need 8 hours of coverage instead of 6, we can easily add 2 extra hours for you. Just like any other add-ons, we're happy to customize your package to meet your needs.

## **WHAT ABOUT MUSIC?**

I choose music from a variety of sources which is all licensed for online use. Commercial songs cost thousands to get licensed, so no I don't use any top hits unless you want to give me another couple of thousand of course.

## Preparation & Planning Guide for Your Wedding

To ensure your day runs smoothly and we capture all the moments you'll cherish, consider the following tips:

**Getting Ready Locations:** Choose a spacious, well-lit location for your preparations. If the couple is getting ready in separate locations, ensure they're close by to facilitate easy transitions for the photography/videography team.

**First Look and Letter Reading:** Plan for a quiet, intimate space if you choose to do a 'first look' or exchange letters before the ceremony. This allows for genuine reactions and emotions to be beautifully captured.

**Makeup and Dressing Areas:** Opt for areas with plenty of natural light, ideally next to a window. This enhances the quality of your preparation footage.

**Wedding Attire:** Arrange for a special hanger for your dress and suit, and a location to hang them for great shots. Keep all accessories (jewelry, shoes, cufflinks, etc.) in a box for easy access and capturing.

**Activities During Preparation:** Consider including activities like exchanging gifts or sharing a toast with your wedding party. These add depth to your story.

**Ceremony Timing:** Aim to end the ceremony about an hour before sunset. This allows for your post-ceremony photo session to be shot during the 'golden hour'—that magical time just before sunset which offers stunning lighting.

**Reception Events:** If you plan to have speeches, a first dance, or a grand exit, let us know in advance. These are special moments we wouldn't want to miss.

**Assign a Point Person:** If you don't have a wedding planner, assign a trusted individual to keep things moving smoothly and liaise with us as needed. They can also help gather people for group shots.

Remember, your wedding day is a celebration of your love. These tips are meant to help you relax and enjoy the day while we capture the story unfolding.
